### The News.

By the steamship *Moses Taylor* we have news from California and South America. In the election at Sacramento the Buchanan or Democratic ticket was defeated by several thousand majority. The people of Mariposa welcomed Col. Fremont by public demonstrations, bonfires, cannon, &c. Twenty-one thousand dollars in gold dust, for Wells, Fargo & Co., was robbed from a stage coach on the way from Nevada to Sacramento.—New and rich discoveries of gold in Washington Territory caused a tremendous rush from all quarters in that direction. The specie buried by the Captain of the brig *Cordelia*, who scuttled his vessel after robbing her, has been fund in Lower California. From Gautamala, intelligence had been received, stating that cholera was raging with great violence in various parts of the Republic. An attempt of Col. Kinney to capture Greytown was defeated.

From Washington, we learn that the posponement of the Kansas land sales has been officially announced. Prominent members of the Republican party at Washington deny having given their consent to the organization of a new party, or having been conversed with upon the subject. They very properly acknowledge their willingness to co-operate with other parties, when such co-operation requires no sacrifice of principles—for the maintainance of the rights of Freedom—The subject of the British aggressions upon our commerce still occupies the attention of Congress.

The funeral of General PERSIFER F. SMITH, late Commander-in-Chief of the Utah forces, took place at Philadelphia on Saturday. The display upon the occasion was very imposing.

Three vessels sailed from Cleveland, two with staves, and one with a cargo of wheat, direct for Liverpool, on Saturday.

The New York wheat market was steady, and flour lower, on Saturday. In our market, prices were unchanged, and there was a lively request for good samples of wheat. Our weekly review of Commercial Matters will be found in another column. It will be seen that the shipments of wheat and flour from this port, thus far this season, foot up as follows:

| | |
|---|---|
| Flour, bbls | 128,035 |
| Wheat, bush | 1,036,645 |

Or, by reducing flour to wheat, we have a total of *one million, five hundred and ninety thousand, three hundred and two* (1,590,302) bushels, against 1,323,759 bushels shipped last year to the same date, making an increase of 266,543 bushels over last year.

### Commodore Paulding and the Administration.

WASHINGTON, May 25, 1858.

Commodore Paulding has had his interview with the President and the Cabinet, at which his reception has been courteous, but not exactly cordial. He told the President that when he captured Walker and despatched him and his tatterdemallions to the place whence they came, he supposed he was executing to the letter the policy of the Government, but that after he had secured Walker on board his ship, the prisoner made revelations which induced him to doubt whether he had correctly understood it. Walker assured him, the Commodore, that two members of the Cabinet were privy to his scheme, and had signified their approval of it, and one of the ministers was no other than the Premier.

Gen. Cass replied to this that he thought he should be able to prove an *alibi*. Whether the other alleged patron of the fillibuster was designated by Commodore Paulding, or not, I have not been informed, but doubt not that he was. Mr. Thompson is the gentleman for whom rumor appropriates this honor. It is very likely that Walker interpreted the general public declarations of Gen. Cass, as, for instance, his Tammany letter, into the specific approval of his enterprise, which he paraded as part of his available reserve on the quarter-deck of the Wabash.

It is said that Walker wept and sobbed bitterly when he found himself a captive under the flag which he had renounced.

Commodore Paulding is so prompt and decisive an officer, that he ought to be dispatched at once to the West Indies, with directions to overhaul the Buzzard, and the Tartar and the Styx.—*Correspondent N. Y. Times.*

### British Corn Trade.

Real progress, at a rapid rate, has been made during the past week. The heavy and timely fall of rain, which commenced on Wednesday night, has done incalculable good, especially to the young Lent Corn and Grass. The fall of last week, based apparently more upon nervous feeling than well grounded facts, has given place to more confidence, and an advance of 1s per qr. has generally been established on Wheat. There is, too, a growing indisposition on the part of farmers to accept unremunerating prices, as evinced by the smaller quantities returned in the weekly sales. Indeed, the universally reduced stocks of spring corn promise soon to make wheat the only reserve; while much of this, from its cheapness, has been used for cattle.

Potatoes being consumed, Ireland has found such a large demand for maize, that this inferior food has come to a parity of value with the grain, which used to fetch double the price.—The fears of immense shipments of wheat sent simultaneously from all parts at the first opportunity, are considerably abated by foreign advices, that nowhere justify the expectation. It seems to be forgotten that free trade itself secures this country a market at all times, and that the question of price alone determines the opportunity to ship. It is this which checks or stimulates foreign adventures or British orders. There is, doubtless, plenty to come, with sufficient inducement, but not otherwise.

Notwithstanding our continued imports, so large is the consumption, that London, if called on to meet it with its present small stock in granary, would be cleared out in three days.—Perhaps, as things go on, about 1,000,000 qrs. more may arrive before harvest. But this is not a month's consumption, and the most critical times are to come. On the continent there has been little change. France is generally dearer for wheat and flour; and even there the computation is that two-thirds of the fine crop of last year is worked off. The difference between the French and English averages is 7s. 1d. per quarter.

BACKWARD WEATHER.—The weather has been very unpropitious for farming purposes, so much that corn is unusually backward, and there is a good deal to plant yet in this vicinity, as soon as the land is in proper condition to commit it to the earth.—*Jeffersonian*, May 27.

UNIVERSALIST CONVENTION.—The State Universalist convention meets at this place on the first Saturday and Sunday in June next.—*Ib.*

THE FRUIT CROP.—It is acknowledged by those who pretend to know, that the yield of all kinds of Fruit in Wisconsin, from present appearances, will far surpass, that of any former year.—In this neighborhood the trees and shrubs are loaded with blossoms, and a portion of the fruit already formed.—*Ib.*

LARGE FISH.—A muscalonge, weighing 17½ lbs., was caught here last Saturday by one of our citizens.—*Ib.*

FOR OGDENSBURGH.—A tri-weekly line of propellers also run to Ogdensburgh.

GRIFFIS & BURNS, at the foot of East Water street, are the Ticket Agents for the above lines.

FOR COLLINGWOOD.—A tri-weekly line of propellers run to Collingwood, stopping at intermediate ports, and leaving this city on Monday, Wednesday and Friday of each week. L. D. JEROME, Agent.

☞ LET EVERY BUSINESS MAN REMEMBER, that the DAILY SENTINEL has MORE THAN DOUBLE the Circulation of any other Paper in Milwaukee, and is, therefore, the CHEAPEST AND BEST ADVERTISING MEDIUM in the City.

A DESPERATE MANIAC.—On Saturday afternoon, a man came into the office of H. W. Allen, on West Water street, and upon entering the same, immediately commenced upsetting the desks, breaking the windows and smashing things generally. Both Mr. Allen and his bookkeeper were out at the time, but they left a German lad in care of the office, who attempted to interfere with the intruder, but the latter attacked him in a furious manner, and he was obliged to run to save himself.

He called some persons who were close by to his assistance, but so desperately furious was the maniac, that there was none amongst them who would venture to enter the office, which, by this time, was a complete ruin inside. The boy immediately went to the Police Station and got three policemen. When they reached the office the maniac had fastened the door, while he made a complete smash of everything in the office. He upset the stove, broke the windows, both glass and sash, and broke everything else breakable that he could put his hands upon. The police were obliged to force the door open. Policeman Capron going in first, was attacked by the maniac, who had a bar of iron, with which he had been demolishing the windows. He raised it to strike the policeman, but a well directed blow from the latter brought him to the floor. Capron then attempted to hold him down, but in doing so the madman got hold of the officers gold watch chain in his mouth, and biting or jerking off over half of it, the officer positively asserts that he swallowed it! With great difficulty he was placed upon a wagon, and carried to the station house, it taking, three policemen to hold him. When located up at the police station, he appeared to amuse himself by attempting to chew the iron handle of a bucket in his cell.

It was a horrible sight indeed, to witness the wild conduct of the unfortunate man. He is a stranger in this city, but has a brother living in the Third Ward, we believe. He is an Irishman, and has, we learn, exhibited symptoms of insanity for some time past. We did not learn his name. It is well that he was secured before doing more serious mischief.

POLICE COURT SATURDAY.—Bridget Ford, intoxicated, fined $10 and costs. Mary O'Neil, for some offence, also fined $10 and costs. The case of Darby Carney, charged with disorderly conduct, in raising a muss in the 3d Ward about a week ago, was tried and the defendant convicted and sentenced to pay a fine of $10 and costs.—We learn that Darby has taken an appeal to the higher Court. Chas. Worner, charged with assault and battery, was dismissed in consequence of the prosecuting witness not appearing against him.

A FOUNDLING.—On Thursday night, a male infant was placed in a market basket and deposited on the steps of the Sister's Hospital, when it was shortly afterwards discovered. It was left there between ten and eleven o'clock, and had no clothing upon it, save half of an old bed quilt, which was wrapped around it. The child was not more than three or four days old. The basket and bed quilt, the latter of which is spotted with white, was on exhibition at the police station, where it is hoped some one may recognize them. The Chief of Police, respectfully invites the attention of physicians to this matter, in hopes that he may get some information which will lead to the detection of the child's parent.

ROBBERY.—On Wednesday night last, a farmer was robbed at the United States Hotel, on Erie street, of $70 in money. It was taken from his pantaloons under his pillow, while he was asleep. The thief has not yet been arrested.

ALBANY HALL TO-NIGHT!—It will be remembered that MISS TERSA ESMONDE, makes her first appearance in our City at Albany Hall this evening. She will read some choice selections from the poets of Ireland and America. Where Miss Esmonde has been heard, the press speaks of her in terms of the highest admiration.

MARINE AND NEWHALL HOUSE BONDS.—J. S. FILLMORE has $1,000 Marine bank stock which must be sold. Also $500 Newhall House bonds.

☞ We would remind our friends, and the public in general, that C. Solomon & Co., opticians, at Juneau Block, East Water street, up stairs, are going to remain in this city a short time longer only, and we would advise them to make use of the chance offered by the opticians, to improve and perfect their vision by their unsurpassed spectacles. may31d3t

SOME BEARS.—Last week an old bear and three cubs were seen near the farm of Mr. Chas. Winkley, about three miles north-west from this village. Mr. Henry Simpson succeeded in capturing alive the three cubs, the old "varmint" effected her escape. She appeared nearly as large as a cow. Mr. Winkley now has one of the cubs at his store in this village. Three cubs have also been caught in the vicinity of Jenny.—*Wausau Central Wisconsin.*

TRIAL OF PEARSE.—The trial of Richard N. Pearse, for the murder of Wm. Hamilton, was concluded on Thursday, at Elkhorn, and the Jury gave a verdict of Murder in the second degree.

NEW COUNTERFEIT.—Counterfeit 20's on the Badger State Bank, Janesville, are said to be in circulation. They are altered from bills of a smaller denomination.

### Winchell's "Last" Hit at the Weather.

Some say of the weather, they don't care a groat
Whether we've any more weather or not.
Rain falls, if I choose; when it don't, then it smokes
Just like some weak stomached tobacco-using folks
"Look onward and upward," the progressive cry,
This trying to look upward is all in your eye,
Why don't some long-handled nor'wester try,
To sweep all the black, murky clouds from the sky?
Or some cunning Yankee, without much delay,
Invent some huge bellows to blow them away?
If the sun would come plainer, and warm us again
With its bright, cheerful rays, I wouldn't complain.
Once, Nature, the seamstress, used to dress her so gay,
That she looked very lovely, this beautiful May.
But now, since the panic has caused her to stop work,
She goes about, shabbily dressed up in slop work.
If the rain won't stop, I will, for fear it be found,
Like the rain, I am running it into the ground.

## COMMERCIAL & FINANCIAL.

### WEEKLY SUMMARY.

OFFICE OF THE DAILY SENTINEL, }
MILWAUKEE, May 31, 1858. }

There has been no extraordinary degree of activity in general trade during the past week; the weather, for the most part, being extremely unfavorable for the transaction of business to any extent. The roads are, and have been throughout the week, in a shocking bad condition.

The opening of the Steam Ferry across the Lake to Grand Haven, and thus forming a connecting line with the Detroit & Milwaukee Railway, has been *the* event of the week. This is destined to be one of the most important routes between the West and the Atlantic coast. When the Det. & Mil. R. R. shall have been completed to Grand Haven—it is within 40 miles it is now constructed—and the heavy boats, which it is the intention of the Transit Company to put on this line, are running, it will, no doubt, be the most important channel of transportation between the sea-board and the Great West. At present it is the cheapest and most pleasant passenger route to the East.

From every quarter of the State we hear favorable reports of the growing wheat crop. There never was as great a breadth of land sown in our State, as there has been this season. The Watertown *Democrat* thus speaks of the crops in Jefferson County:

"The wheat fields, we are sure, never presented a more promising appearance than they do now, and there are many and broad ones in this part of the State. They line our principal roads and now present one wide sea of bright waving green. We have seen some fields of spring wheat that looks almost as forward as the winter, and can hardly be distinguished from the latter. Thus far, the season has been particularly favorable for the growth of this cereal, and if nothing occurs to disappoint the expectation that may now be justly indulged, whatever else we may want, we shall not want bread, for there will be enough and to spare. Should prices be fair such as farmers ought to receive for a bushel of good wheat—Wisconsin will reap a harvest of wealth from her splendid and unsurpassed green fields next Summer. It is hardly possible now to anticipate what will be the fate of other crops, but there is no reason to suppose that there will be at least an ordinary yield Summer approaches slowly, but it may be the more favorable for all that."

An article, from which we published an extract last week, upon the Chicago and Milwaukee wheat markets, has been the subject of some comment during the week. The Janesville *Gazette*, in an article upon the competition between Milwaukee and Chicago for the wheat trade of that section, after charging our produce dealers with numerous misdoings—upon information—also said that it was informed "that the Chicago market has ruled higher than the Milwaukee market for some time past." In crediting this "information" as regards the markets, the *Gazette* betrays more ignorance of commercial matters than we supposed was possible for a journal usually so well "posted" upon other subjects. We will not attribute the *Gazette's* course on this subject to any desire to misrepresent the facts; but without going much out of our way, we can convince the *Gazette* of its error. We will refer it to the reports of the two markets—Chicago and Milwaukee, which we publish daily, and will be found in our commercial column this morning, for correct "information." By turning to our columns for the past three or four days, we find that while club wheat has been quoted dull at Chicago at sixty and sixty-one to store, in Milwaukee there was a fair demand at *sixty-five* and *sixty six* cents. This is conclusive, and the best refutation we can give to the *Gazette's* statement, "Figures won't lie," and even our gaseous neighbors at the head of the Lake have never set up any claim for themselves, as that to which the *Gazette* gives credit.

We append our usual market report and money article:

There has been a fair business done in our produce market during the past week, notwithstanding the very unfortunate state of the weather during the greater part of the week. Receipts of produce have increased considerably, though they are not so large as for the corresponding week last year. When the farmers get through with their Spring work, and the weather a little settled, no doubt grain will come in much faster. What comes forward now, generally meets with a ready sale at fair prices. The market throughout the past week, has been uniform and steady, and for the most part active. We have no important changes to notice in the prices. Flour continues dull, and Barley, Potatoes, and Butter also remain inactive. In the New York market; during the greater part of the week, there has been a fair export demand for wheat, with little fluctuation in prices. Milwaukee Club finds ready sale at 84a86c. Our expectations of fair weather have not been realized. For the most part during the week we have had more or less rain every day, and all through the western country the same state of things exist, as regards the weather. On Saturday, after a copious rain on Friday night, the skies brightened up somewhat, and decidedly indicated a drying up.

WHEAT—There has been little fluctuation in the wheat market during the past week. Prices generally uniform, and demand rather active for good samples at last week's quotations. On Monday, extra club sold readily at 64a65c, and No 1, 60 and 62½c. On Tuesday there was rather less activity in the market, though there was no decline in prices; but on Wednesday there was altogether a better feeling in the market, and a slight advance in prices of choice wheat. Sales of Club at 65 and 66c, No. 1 was also in better request, and winter wheat steady at 75a85 for white, and 65a70 for red. On Thursday, Friday, and Saturday, the market was steady, without change in prices. One fine lot of white winter, 220 bags, was sold at 88c. Sales of club at 64 and 65, and No. 1 at 62, 62½ and 63c, according to quality.

FLOUR—Not much doing in flour in the early part of the week, but market more lively toward the close. Moderate sales of Excelsior Mills, Spring extra, at $3,29½a3,35 f. o. b.; Portage City Mills, do., $3,37½, delivered; Rock Mill $3,35. Holders were less firm at the close of the week, and prices rather drooping.

FREIGHTS—There has been no change in rates during the past week. But few vessels were here in the early part of the week, but toward the close vessels were arriving from below daily, and re-loading. The following are most of the vessels which were chartered during the week. Bark Badger State, flour to Buffalo at 20c; Brigs Seminole and Saxon and Sch. A Scott, wheat to Oswego at 7½c; Sch. Lewis Ludington, wheat and flour to Buffalo at 4 and 20 cents; Propeller Acme, flour at 25 and oats at 3c to Buffalo; Prop. Dacotah, full cargo of flour to same port at 30c. Schooner Yorktown, wheat to Kingston at 8c; Sch. Cramer, flour and oats to Buffalo at 20 and 3c. On Saturday, Schrs. Aldebaran, H. Lansing, Republic and Norway, wheat to Buffalo at 4c; the latter also takes some flour; the Prop. Missouri, wheat at 4c, and flour at 20c.; the Schr. Gerrit Smith, wheat and flour to Oswego on owner's account; the Live Yankee, wheat to Oswego at 8c.

OATS—Receipts for the week larger than usual, and prices rather on the downward tendency. We quote best samples slow at 25c.

RYE—Very little in the market, and very small receipts. In good request at 50a52c.

BARLEY—Arrives in small quantities and still remains dull at 30a35c for very best bright lots.

CORN—In moderate request at 39a40c for shelled, and 35a37c in the ear.

POTATOES—Plenty and slow at 20a25c.

BUTTER—Receipts very large, and market glutted. Best fresh roll slow at 12½a13c, and firkin unsaleable.

HIDES—In good request at 5a6c for green, and 10a13c for dry.

SALT—$1,70 by the bbl.

### MONEY MARKET.

BANKING AND EXCHANGE OFFICE OF BRIDGE BROTHERS, }
166 EAST WATER ST., MIL., May 29, '58. }

Business throughout the city has been dull during the last week, though with a slight improvement over the first part of the month. The intolerable weather we have experienced has rendered our roads impassable, and there is nothing doing with the country, except on the line of our Railroads.

Large numbers of strangers have been here lately, from the East, and it is hoped that some of them may be induced to remain, invest their money, and make our city their place of abode. Few cities West of New York if any, present greater inducements than our own, to Eastern capitalists, and should our laws invite, instead of retard the introduction of foreign capital, parties coming among us will meet with an agreeable welcome.

The route to Grand Haven, and from thence East, may be considered as fairly open, though not entirely perfected. The steamer Forester makes daily trips, bringing from 60 to 80 passengers, and when arrangements are fully completed, the facilities afforded for a quick transit for travellers and merchandize, will be of unquestioned benefit to our City and State.

The La Crosse Railroad Company elected their new Board of Directors and Officers this week. They will probably take some action upon the bonds, on the issue of which the late Investigating Committee have been sitting, and what course will be pursued is not known, but with many is a matter of conjecture.

We have a telegram that the notes of the Macomb County Bank, Michigan, are again thrown out at Detroit. This Bank has been up and down for years, and it is to be hoped will finally settle itself.

We have nothing particularly new in uncurrent money. There are some conflicting reports concerning the new banks in Pennsylvania, and we have taken measures to learn positively the credit they occupy.

Exchange is rather plenty. There is little call for Gold. We quote:

Exchange on New York,.. ..........1 ₩ cent.
Gold,........................................1 ₩ cent.

Land Warrants are rather active, with more call for 80s and 40s than any other size. We give same prices as heretofore:

80's.........................95 " "
120's.......................90 " "

### Congressional Proceedings.

WASHINGTON, May 29.

SENATE.—On motion of Mr. Seward, a thousand extra copies of the Resolutions of the House on British aggressions were ordered to be printed.

Mr. Mason spoke on the resolutions, showing that international law recognizes no right of visitation in time of peace, and in time of war it only concedes that right to the extent of preventing acts contraband of war.

Mr. Mallory proposed an amendment that American people cannot permit such aggressions, and therefore so legislate to enable the executive to adopt measures at once to prevent the continuance of such indignities.

Mr. Mallory, although recognizing the mission of the U. S. and England to be for the preservation of peace he could not sacrifice the rights of the honor of the country to any issue whatever. He could not consider that this succession of outrages was the mere act of individual naval officers; they were owing, doubtless, to the orders of the English Admiral at Jamaica, who in return had received orders from his Government. It was a suspicious circumstance that these outrages commenced immediately after the refusal by our Government of certain demands made by England respecting the slave trade.

Mr. Hale moved to amend the amendment to the effect, that the acts of the British are belligerent in character, and should be resisted by all the power in the country. He considered the acts should be met by acts and not by arguments.

Mr. Mallory withdrew his amendment, in favor of Mr. Hale's.

Mr. Toombs was in favor of Mr. Hale's amendment, and further that the British War ships in the Gulf should be seized and brought to our own ports or sunk, and that we should be satisfied with nothing short of this.

Messrs. Seward and Douglas, spoke in favor of the spirits of the resolutions, the latter taking the ground that the Wabash be sent to follow and bring in the *Styx*.

Mr. Seward, of N. Y., expressed his concurrence and the concurrence of the minority of the committee on the spirit of the resolution. The assumption of Great Britain is founded on force, and is claimed by no other than the British, or such as, like her, assent the mastery of the seas, but the U. S. set out with the intention to be equal to any nation, and cannot allow an affectation of superiority by any power. Even in a modified form of visitation, the right of search and visitation are terms synonymous. The principles of police at sea are identical with those on land. Any one may seize pirates at sea or culprits on shore, but he does it at his peril.

If the arrested party be a culprit to, he is abandoned to justice; if not, it is an aggression, and the aggressor is liable to make reparation.—The nation will never permit its flag to be prostituted to purposes of piracy, but it must resist every aggression on its peaceful commerce. He had not looked in the law books for the technical objections to the right of search; it is enough that it cannot be permitted. That it is an aggression on the equality of nations, that it is an attempt to exercise superiority over this nation. There are seven members on the Committee on Foreign Affairs, and naturally there is some difference of opinion as to the terms, but the substance of the resolution was satisfactory to all. Each is ready to accept any other form of words that will express the firmness, dignity, and moderation that becomes a great nation in expressing its opinions on a great question.

No prudent man believes that the British Government, has ordered these agressions with a view of making war on this country. They are acts of war, but all know that if Britain wanted to begin a war with the United States, she would not begin it with a gun boat, although they may have originated in a misapprehension of orders. The executive properly and promptly determined to wait for explanations, nor to recognize that any explanation can be given, which can concede the right of visitation and search. Mr. Seward fully endorsed the promptitude of action in sending to the Gulf a force sufficient to sink every British cruiser.

Mr. Douglas asked what good does it do to resolve that this search is a belligerent act.—The American people and England knows that England was so informed forty years ago, and yet she has violated our rights fifty-three times within the past four weeks. He commended and advised the promptness with which the President has sent a force to the Gulf, but that force is only up to the point of preventing. Do you suppose it will ever find an opportunity unless a ship of war be sent to accompany every merchant vessel. The Senator from N. Y. was wrong in saying that our force could sink the British in the Gulf. The British have their three guns to our one. It is brave, at least, to think that our one will sink their three.

He recommended another force; let a ship of war, say the Wabash, get on the track of the Styx or Buzzard, follow her up, capture her and bring her into an American port, and it will then be the time to make explanations. If England avoids the cruiser acts, it becomes an international question; if she disavows the acts it only remains to say what punishment we shall inflict on those lawless persons who have perpetrated those outrages.

The President having gone as far as he can go, let him have at once such powers as are necessary to protect our flag, and maintain the rights of our citizens, at home and abroad. He had no fear of the abuse of such power by the present executive, or any that may follow him. The President is almost powerless abroad; every other chief magistrate has the power not only to repel, but to punish outrages on his nationalities, and why should not the Chief Magistrate of the Republic, have power ample and full of our flag, and instead of having any apprehension that power will be abused. Mr. Douglas only fear was, that it would not be exercised often enough.

We cannot protect our commerce in the Gulf and in the Caribean Sea, without power in the executive to punish promptly. The British name is respected and ours dispised among the Spanish Americans, because the British take instant reparation; whereas the Mexican and other weak republics know that that the President has no instant power, and in the delay of negotiations reparation is lost.

Mr. Douglas held to the general policy to keep the President clothed with power to protect citizens outside of the U. S, by summary process, without going through the old formula of resolutions that the aggressors must not do it again. He was in hopes there would have been no speeches, but that the bill would have been passed unanimously, without a word, which expression of sentiment would have carried more force than the army or navy.

Mr. Hayne, of S. C., spoke in praise of the gallantry of the Navy, who, he said, would go to the bottom to do their duty.

Mr. Wilson, of Mass., was proceeding to address the Senate in support of the resolutions, and adding that it was also our duty to see that our flag be not prostituted by men engaged in the slave trade. He concluded by moving that the President is hereby authorized and empowered to employ the naval force of the United States, and send the same to the scene of the recent outrages, with instructions to capture the ships which have committed or may commit these belligerent acts.

Mr. Hayne introduced a resolution to appoint 10 naval cadets; referred to the naval committee.

Mr. Seward presented a petition from E. K Collins and associates, asking payment of the money due them on the mail contract; referred to the committee on post roads.

The miscellaneous appropriation was then taken up. Mr. King's amendment for the Brooklyn Custom House provoked renewed discussion, and was finally lost. Pending other amendments the Senate adjourned.

HOUSE.—Twenty private bills were passed.

Mr. Clay, of Ky, said while the whole country, from one end to the other, is excited relative to the outrages committed on our flag and vessels, and while the Senate chamber was engaged with the same subject it seemed to him that the House should take some action, he therefore asked leave to introduce a bill to restrain and repress the outrages on our flag and citizens, and to give the President authority in the premises.

Mr. Garnett, of Va, being opposed to converting the government into a military despotism, objected. Adjourned.

### Later from California.

NEW YORK, May 29.

The steamship *Moses Taylor* arrived here at 1 o'clock this afternoon, with California advices to the 7th of May, and $1,567,000 in specie and 700 passenger.

The *Golden Gate* left San Francisco on the 5th; but in the same afternoon broke her shaft and returned.

The *Sonora* sailed in her place on the afternoon of the 7th.

The *Moses Taylor* passed on the 25th, in Crooked Island passage, the steamer *Star of the West*.

California news unimportant.

The Legislature has adjourned.

New gold diggings in the vicinity of Walker River had caused much talk.

A. R. Mulloney is appointed State Comptroller.

The stage from Nevada to Sacramento, with $21,000 in gold dust, for Wells, Fargo & Co., was robbed.

The people's ticket was elected in Sacramento by several thousand majority over the Buchanan ticket.

Col. Fremont was welcomed to Mariposa, by bonfires and cannon.

It was announced that the Indian tribes in Plumas county are banded together to make war upon the whites.

A guano island, containing over a million tons, is said to have been discovered on the track between the Sandwich and the Ladrone Islands.—Specimens had been received at San Francisco.

Advices from Fraser's River confirm the account of the great richness of the gold mines. There is a tremendous rush from all parts of the British possessions towards the gold regions.—The mines extend over the line into American territory. A steamer loaded with diggers had sailed from San Francisco.

The pilot boat Finney, had returned to San Francisco from Cape St. Lucas, Lower California, where she had recovered the specie buried there by the Captain of the brig Cornelia, when he scuttled her.

The ship Zenobia, from Sitka with ice, went ashore on the 30th on the North Head—total loss.

Nothing important from Oregon or Washington Territories.

The frigate Saranac arrived at Panama on the 7th of May.

Dates are received from Valparaiso to the 16th and Callao to the 27th of April.

Advices from Guatemala state that cholera was raging with great violence in various parts of the Republic.

Advices from Nicaragua state that M. Belly, French agent, was negotiating for a transit route for which he says sixty million francs are already subscribed in France.

The British steamer from Greytown, reports that on the 25th of April, Col. Kinney made an attempt to capture Greytown, he having hauled down the Mosquito and hoisted the Nicaraguan flag, and taken the Mayor prisoner.

The citizens fled to arms, and appealed to Captain Kennedy, of the Jamestown, for assistance. Assistance was granted, and five cutters filled with marines left the Jamestown for the shore. Kinney and his party finally surrendered to Capt. Kennedy.

### Washington Matters.

WASHINGTON, May 29.

The sale of the military reservation at Rock Island, Illinois, has been postponed by the Secretary of War, for the present.

The postponement of the land sales in Kansas till the 1st and 15th of November, is officially announced.

Men of all parties opposed to the policy of the Administration, have been consulted in regard to the formation of a People's Party of the Union, but no general meeting has yet taken place.

The prominent members in Congress, state that they have not been conferred with, or given their consent to the new organization. They think there is quite enough opposition parties now, without making any more, and while willing to co operate with other parties, where co-operation requires no sacrifice of principle, they intend to make the canvass of this year on the platform of the maintainance of the rights of freedom, without trespass on the rights of the South—anti-Lecompton, anti-Administration, and Retrenchment and Reform.

NEW YORK, May 29.

There is a rumor about town that the British Minister has despatched a vessel from this port instructing the British Admiral, on the West India Station, to abstain entirely from interfering with American vessels until he receives further advices from his government, but it is probable that despatches may have gone out Thursday in the Black Warrior.

### The Funeral of Gen. Smith.

PHILADELPHIA, May 28.

The funeral of Gen. Smith, took place this P. M., and the display on the occasion by the 1st Division of Militia, under Gen. Cadwallader, was very imposing. The Scott legion had the left of the line, after them came a detachment of marines and the Duquesne Grays of Pittsburgh.

The body guard consisted of Com. George C. Read, and Capt. Wm. McCean, of the Navy; Colonels P. J. Crane and G. H. Thomas, of the Army; Mr. Thomas Dunlap, Chas. Biddle, and a large number of citizens. The procession proceeded to Laurel Hill, where the National Guard fired the usual salutes. The flags on the public buildings, avenues, and shipping were displayed at half-mast, and minute guns were fired at the Navy Yard during the day.

### Another American Vessel Boarded.

NEW YORK, May 29.

The brig *J. A. Taylor* arrived to-day. She was boarded in the harbor of Sagua, by a boat from the *Styx*. The officer merely asked where she was from and where bound, and looked at her papers.

### Marine News.

CLEVELAND, May 29.

The barque *D. C. Pierce*, schooner *D. E. Sexton*, staves and lumber, and schooner *Correspondent*, with wheat, all for Livepool direct, and the barque *H. E. Howe*, to Detroit river, for a cargo of lumber, thence to Liverpool, sailed today.

### The "New Party."

The *News*, in common with other pro-slavery organs, is greatly elated at the prospect of a "new party," which looms up extensively in its democratic imagination, upon the ruins of the Republican organization. Through its distorted optics, the *News* sees the Republican party on the verge of a general dissolution. This, no doubt, is what it desires, and it is just what the pro slavery Democracy have been prognosticating since the Republican party came into existence. Nevertheless Republicanism continues to gain strength, and to acquire a firmer foothold on the minds of good men in every section of the Union; and it has made noble progress in the cause of restoring our country from the grasp of a corrupt and unprincipled party.—But its work is not yet done, its high mission not yet ended; nor will it be, until the enemy is completely vanquished, until the domineering slave power is conquered, until Freedom and Right are triumphant, and our National Government thoroughly reformed. There are no signs whatever of disorganization in the Republican party. It is to-day the party of the Union, though not the party in power. Never were its prospects of a glorious future more encouraging than at the present time, and never was there a time when it had a nobler work to perform than that before it—of rescuing the Government from the hands of corrupt and wicked men. The party which is really on the point of disorganization, in fact disorganized, is the so called Democracy. Its hitherto most prominent members are forming themselves in opposition to the party with which they have heretofore been identified, unable to follow a party which has forsaken every principle of justice and right, any further in its evil course. These are what the pro-slavery organs effect to believe are signs of disorganization in the Republican ranks, when they are in reality only evidences of the determined rebellion in the Democratic camp. The Republican party will live, and Republican principles will triumph!

### The Crevasse on the Lower Mississippi

We continue to receive accounts of the extraordinary and dangerous high water in the lower Mississippi, and the state of alarm in which the inhabitants of the country upon its banks are kept is represented as pitiable. Those who have been South understand that the peculiar nature of the inhabited portion of Louisiana makes this danger one of great importance to the whole State. By far the greater portion of the population is located upon immediate banks of the great river and its connecting bayous, which are, with few exceptions, more elevated above the surrounding waters than the country in the rear, where it rapidly slopes off into an impenetrable swamp. For hundreds of miles up the river the land is protected from overflow by the erection of a continuous bank, or levee as it is called, the heighth of which is carried up slightly above what is esteemed as high water mark in the periodical risings of the river. At times this bank breaks away, and if the river is high, the waters pour through the opening a flood that spreads over the cultivated land and runs off slowly into the swamps in the rear. These sometimes fill up with water to such a degree from the overflow as to back up the water upon the cultivated land along the margin of the river, covering it often for weeks.

One of the most dangerous floods of the Mississippi in modern times, if we remember correctly, was that of 1850, and the waters of the lower Mississippi are now stated to be within nine inches of the highwater mark of that year. In many places the river has broken through the levees, and flooded the plantations to a degree that seriously imperils the amount of the crops. The principal crevasse, or break, this year is at Gretna, a small place about four miles above New Orleans, on the opposite side of the river. This crevasse has now a volume of water rushing through it that defies every effort to stop it, and we believe the attempt has been abandoned until the river shall fall. The village is mostly submerged, and so greatly has the water in the swamp risen, that for thirty miles below the city it has backed up upon and overflowed nearly every plantation. These, and most of the others that are overflowed, are engaged in the production of sugar, and the present disasters are likely to reduce materially the yield of Louisiana this year. The cane, being submerged, rots and is lost.

### Re-Organization of Parties.

Thurlow Weed, the veteran editor of the Albany *Journal*, thus concludes an able article upon this subject:

> There is, however, a process by which there may be an effective and an honorable "Re-Organization of Parties." The Republican party has always permitted the "latch-string" to "hang outside the door." None are precluded from admittance; all are invited; and invited, too, upon an equal footing with all who have gone in before them. In all non-essentials, it concedes and inculcates the largest liberty. *Such* a "Re-Organization of Parties" is practicable. To attempt any other would be futile and degrading.
>
> This, therefore, is the conclusion of the whole matter: The abandonment of the vital principles of the Republican party, with its name and its organization, to effect a coalition with any other parties, would result at once in degradation and defeat. A few leaders might submit to such a humiliation, but the rank and file—never. The organization, and essential principles, and name of the Republican party must constitute the nucleus of any re-organization. If they shall, something effective may be honorably accomplished, and Pro-Slavery Democracy wiped out of existence in 1860.

### Free R. R. Passes to the Editors of the Editorial Association.

MESSRS. EDITORS:—Please announce, for the gratification of the Editorial Fraternity, that, so far as heard from, the several Railroad Superintendents of the State have manifested their appreciation of the objects of the proposed Convention by a cheerful compliance with our request for free passes over their respective roads.

There is scarcely a doubt that other roads will be equally generous.

Respectfully,
—*Madison Journal.* J. W. HOYT.

THE COST OF A RAILROAD DISASTER.—The Auburn *American* says that the entire loss of the late disaster on the N. Y. Central Railroad is put down by some at one hundred thousand dollars. Others estimate it even lower. Settlements of the claims of about one-half of those injured, have already been made. The father of J. C. Knowles, the ninth victim, who died on Sunday, received $1200 as compensation. The other amounts paid were generally small, the victims being willing to take what would pay all expenses, loss of baggage, time, &c., rather than litigate for damages. No doubt the injured parties can be settled with much less expense now, than they can, after waiting for the tardy operations of the law. They will then demand a large bonus.

The Utica *Herald* states that Mr. Bettman, of Cincinnati, has settled with the Company for $7,500.

A ROW AMONGST RAIL ROAD LABORERS.—The New Lisbon *Republican* says:

> A very aggravated riot was committed one day last week, near this village, by some 25 Irish laborers on the railroad, on the person of a Mr. Carpenter, a boss or overseer on the road.—Mr. C. was shockingly beat and mangled; and the rioters then returned to their quarters, some seven miles above this place, whereupon Sheriff Nichols immediately raised a posse of nearly 100 men, and proceeded to arrest the company, and succeeded in securing 17, who are now in Jail in default of bail, to answer at the next term of court for riot. The efficient manner in which Mr. Nichols discharged his duties in this case is a matter of comment by all who witnessed the arrest.

### Pencilings by the Way.

### Whitewater and its Environs.

From our Travelling Agent and Correspondent.

WHITEWATER, May 22, 1858.

Around the village of Whitewater is an area of fine openings and prairie, all under the best of cultivation, with a class of settlers that are full of energy and enterprise. The village of Whitewater presented the most life-like appearance of any place I have yet passed through. A great deal depends in this world, upon having the right man in the right place; Whitewater, from the first, was fortunate in having just that man, indeed, she has plenty of men *now* of the right kind.

On the 15th of May, 1837, Mr. WILLIAM BIRGE felled a "burr oak" across the "white water" that courses swiftly through the site, upon which now stands as handsome a village—containing about 4,000 wide-awake and working inhabitants,—as this or any other State can show. In the same year, the "first furrow" was ploughed by the same gentleman. In 1843 the village was started, and the first School House,—a log building 16x20,—was erected; now there are three substantial and handsomely finished brick school houses; in which 346 scholars daily attend for tuition. On the edge of the stream that was primitively bridged, by the felled burr oak, Mr. BIRGE has now a noble looking Grist Mill, "The Whitewater Mills," with three run of stone, with a set of machinery that runs like clock work. I examined this mill closely, went all over it. I never saw such a clean mill; all the walls on the inside are "hard finished," kept thoroughly clean, swept down, ceilings as well, no dust, not an insect or a mouse track, or what is worse, to be seen anywhere. The owner seems to have imparted to the mill the same energy, punctuality and neatness that characterizes his store, his business and himself. The station master of the Rail Road, (Mr. JUDD,) furnished the Whitewater *Register*, a neat and well got up paper, published here by Mr. RANN, and which has a good circulation, making it a capital advertising medium for Milwaukee merchants; with the following exhibit of the amount of business done during April, 1858, at this point:

Flour shipped, 2,436 bbls., Wm. Birge shipping 1,800, and N. C. Hurburt 506, some other the balance.

| | |
|---|---|
| Wheat shipped, bushels, | 5,000. |
| Hides, lbs., | 4,142. |
| Eggs, bbls., | 17. |
| High wines, bbls, | 7. |
| Am't of charges on Freight for'd, | $1,429 40. |
| Am't of charges on Freight rec'd, | $2,334 80. |

From the first of January to the opening of navigation, Mr. Birge shipped by Rail Road to Chicago, and thence to New York, over 2,000 bbls. of flour, where the brand is, as elsewhere, well known and commands the highest market price. The stream on which this mill stands affords a fine water power; at the Whitewater Mills, there is 12 feet fall, 70 rods above at a saw mill, there is 9 feet fall, and three quarters of mile further up the stream, there is 26 feet fall.

Under the guidance of Mr. Birge and Mr. Cravath, I took a good look, from a high point, that offered a fine view of this truly handsomely laid out village. A few miles from us, the Bark River woods loomed up, and tells the story of an inexhaustable supply of timber and fire wood, convenient to the village; its slight distance only affords labor to many in the winter. Turn whichever way we may, the evidence of a thickly settled, highly improved, and well tilled area of country, is at once made manifest. Near the spot we look from, is the Cemetery, and a few rods further brings us to its fence, I passed through it. I desire no better illustration of the people of this village, than this burying ground affords. The numerous and elegant tombstones, the absence of flattery and false epitaphs, the quiet neatness and taste of the ornamental shrubbery, that decks nearly every grave and skirts every walk, shows that the dead are not forgotten. Another piece of ground, the side hill on the opposite side of the pond from the depot, containing ten acres, has just been purchased for a new Cemetery, and when laid out and planted with shade trees, will be a beautiful spot for the dead to repose in.

Near us, to the north of the cemetery and close to the intersection of the Wisconsin Central and Milwaukee & Mississippi Railroad, is the Reaper and Mower manufactory of GEORGE ESTERLY; the buildings, which cover nearly five acres of ground, consist of a foundry 100x40 feet, one story high, built of brick; in this building are ten forges blown by steam, and from ten to twelve men are constantly employed in the foundry; in the blacksmith shop there are from sixteen to twenty-four men employed; the steel for the sickles is imported by Mr. ESTERLY from England. The machine shop is 100x40 feet; this building contains a drying kiln that will season 10,000 feet of lumber in six days; it also contains an engine room, grinding room, a planing machine, morticing machine, tenon machine, several other machines, and one of M. & M. STONE'S (Milwaukee,) 30 horse power steam engines that drive all the machinery of the manufactory quietly and with ease. The wood shop is 100x30 feet, two stories high, where the putting together of the machines is done, employing 40 men. In the whole factory there is now employed one hundred and sixteen men, who turn out from seven to ten machines every day. The demand is good and I hope, as I have no doubt is the fact, that Mr. ESTERLY is making a fortune by the manufacturing of reapers and mowers of his own invention.

The Whitewater Plow Factory of Messrs. Winchester, De Wolf & Co., is another home manufacture in this village that deserves notice.—Here are employed from 20 to 30 men, turning out between 2,000 and 3,000 plows per year. This plow factory is an old established institution; the firm stands high in the public estimation. There is a stove foundry here, that turns out stoves second to none in the Union. Messrs. POWERS, ALLEN & Co., the proprietors, are doing a good business. There are two Potteries, two tanneries, a chemical soap factory, a sash and blind factory, carried on by T. S. ABBOTT & Co., a cultivator factory, by WRIGHT & CASH, and several small factories; the whole giving employment to a large number of mechanics, whose dwellings adorn, and whose wages spent in the village, helps materially to keep up that lively trade that was going on, and more so in Whitewater than any other place I have seen lately,—a practical carrying out of the good old Whig doctrine of home manufacture. Whitewater feels the benefit of her manufactories—during the past (I trust) hard times, not a failure of a Whitewater man has taken place. The principle men in Whitewater are full of "vim" and "snap," always going ahead, justly proud of their flourishing village, they can, and do extol it, at the same time they do not traduce other places.

There are five churches here. In one enclosure, in which are several rows of handsome shade trees, is a trinity of churches, the Episcopal framed, Congregational brick, and the Methodist framed; these three churches in a row, on a fine street, look well in the village, and tell their own story. Whitewater has also a piece or tract of land set apart for Fair Grounds. The enclosed space, which is in the heart of the village plat, contains 14 acres, a fine level, with, a race course ½ mile around. There is a Floral Hall on the fair grounds, 100 by 30 feet, two stories high, with a wing 30 by 20 feet for a dining room. It is a substantial frame building which together with a judges' stand, and a large swing, furnishes amusement of the best kind. These fair grounds are owned by the Farmers and Mechanics Club; an incorporated company. MR. DAGGETT, of Milwaukee, is largely interested in this club, he is highly spoken of out here.—There is large Nursery Ground here containing 10 acres, kept by WM. H. CONGER, who has quite a choice collection and growth of thrifty looking fruit trees.

There are too many stores to be counted easily. They are mostly in brick blocks, of as handsome looking brick, and to all appearances as durable, as those that have made Milwaukee famous. I noticed one store and one or two houses of pressed unburnt bricks, of a delicate, "pale cream color;" these brick are of Whitewater make. There are several Taverns or Hotels; the Exchange by Mr. Knight, and the Whitewater Hotel by Mr. Wintermute, appear to be the principal ones. I found more building going on in Whitewater than elsewhere, and most of the buildings were first class, good large dwellings, mostly of brick. Lots are bringing a fair price, and have been selling quite briskly since spring opened. Mr. Cravath, a real estate agent and surveyor, at this place, was quite busy in his office. He can be fully relied on to give information to any who desire it, or to transact any business entrusted to him.

Near the depot, and along the track, there are eleven warehouses; S. C. HALL & Co. have a fine one, and STEBBINS & TARR another. Whitewater has a working class of inhabitants within it, and around it a tract of country settled many years since, and now inhabited by a set of people full of energy—an agricultural region the trade of which always makes the nearest village; added to this are her manufactories; the whole spreads her limits; at the present time they are larger, the built up part of them, than many of those places that groan and stagger under a city charter. The postmaster, at this place, is a man highly respected for his integrity and worth. I found, in conversation with a number of the principal men here, that while they were *down* on his politics, they all called him a thoroughly honest and upright man; thus they spoke of Mr. WILLIAMS, the P. M. I find that some of those who founded Whitewater are among the number that have taken the *Sentinel* from the time its first number was issued, and have kept it up to the present day without intermission. The *Sentinel* has a large circulation here, and it is conceded to be, by all odds, the leading and best journal in Wisconsin.

### Death of John Frink, Esq.

John Frink, whose dangerous illness was mentioned in this paper a few days ago, died in this city, on Sunday afternoon. His disease was paralysis; his age was about 64 years.

John Frink was one of the most remarkable men in the West. With limited opportunities in early life for the acquirement of an education other than what is implied in ability to read and write, he proved himself, in later years, capable of successfully conducting an immense business, with great profit to himself, and with untold advantages to the West. Coming here at an early day—in 1836, we believe—he engaged extensively in mail carrying, as a contractor under government, and for almost a quarter of a century was the head of that great Stage Company which, under his executive management, performed the mail service for half a dozen Western States. What difficulties there were to encounter—what patience, courage and endurance were necessary for its successful prosecution— every old settler knows; and though John Frink has probably been more heartily cursed by weary and impatient travelers than any other man between the Atlantic and Pacific, now, when we can look back upon his labors, his obstacles and triumphs, we feel assured that no other man could have carried through what he did. The States of Illinois, Wisconsin, Iowa, Missouri and Indiana, owe more to his unequalled administrative ability, for their early settlement and mail facilities, than to the labor of any living soul. He continued in the business to which he was bred until his coaches were superseded by railroad trains; and then, with the enterprise which was a part of his being, at once interested himself largely in the new method of travel, becoming, as he was when he died, a large stockholder in an important line.

Personally Mr. Frink had but few of the virtues which society cares to perpetuate; but under all his roughness of manner, and beneath that arbitrary and uncontrolled will—aside from the habits which partially destroyed his usefulness—there were many sterling qualities, in the rough it is true, but still there, and needing only cultivation to have made him the ornament of any society in the land. He was, in a word, a large brained, iron framed, self-made man, with more good in his nature and less of evil in his life than belong to thousands who will thank God that they were not as he was. With early advantages and a deeper moral culture, there is nothing to which he might not have aspired.—He could have led an army, framed a treaty or instucted a Senate. But he was born with a stage whip and lines in his hand, and he held them until he died. He desired only to be John Frink. Latterly the estrangement of his eldest living son—a chip of the old block—and irreconcilable domestic difficulties, embittered the old man's life. He was not unmindful that he might be at any time summoned to go hence; and we know that he believed that the call would never be unwelcome. He is booked for the next station.

We understand that a few days before his death, he disposed of his large estate by will, making Stephen F. Gale, Esq., John M. Douglas, (his attorney) and Mr. Hitchcock, his executors.—*Chicago Tribune, May 25th.*

From the Missouri Democrat.

### A New Batch of Roorbacks.

We believe the *Missouri Republican* has never yet told a truth in regard to Kansas matters—at least we have never detected it in varying from its stereotype style of lies. From its first border ruffian bulletins, to its last Fort Scott outrages, the whole thing has been one errant piece of composition, gotten up to effect partisan ends. Its reporters seemed to delight in the manufacture of horrible murders, committed by the free state men, against innocents like Jack Henderson, or infamous robberies, done by abolitionists, upon such long-suffering saints as Col. Titus. Day after day, it tasked the invention of its clay pate scribblers to ostensibly drive all the pro-slavery settlers out of Kansas; but, strange to relate, at the next demand for bogus news, they were all quietly back there, to be driven out anew with much slaughter. This is especially the case with the Fort Scott affair. Three several times, within the memory of a twelve-month infant, it has made a desolation of that fated spot, killing all the women and running off all the men, by Lane's banditti, &c., &c., and yet, after diligent subsequent search each time, not one dead body, or authenticated case of theft has been established at all.

And now it has taken up the cry again. Some personal collisions and land quarrels have been seized upon by a few bad men to justify their own bad passions, and forthwith the *Republican* tunes its harp of a thousand strings, and thumbs out a most greivous Kansas dirge. We are satisfied that all the troubles they have here at this time are very greatly exaggerated, and exaggerated for a purpose. The nullifiers and blue lodge gentry in some of the border counties are trying to re-organize for an invasion to carry Lecompton by fraud, and they are thus preparing the material for excitement in advance. Already we find they have sent abroad word of their intention, as we note the following in contemporary Washington correspondence:

> Letters received here this morning from Platte county, Mo., show that the blue lodges are organizing for another foray into Kansas on election day. That notorious scoundrel, Titus, was active in recruiting companies whose nominal destination was Arizona, but who proposed to set out the day before the Kansas election.—They were armed to the teeth. It would be convenient for them to encamp at and near the different voting places the second day out.

This explains how it happens that the administration organs have all become so suddenly posted in Kansas disturbances, and accounts for their slang expressions and absurbed correspondence about Danites, banditti, free state murders and anti-Lecompton robberies. To credit this newly invented batch of impositions one would have to think that the mere fact of a citizen preferring a white man to a negro was evidence conclusive that he ought to be sent to the penitentiary. The truth is the game the *Republican* and kindred prints are trying on just now won't win; for first the people of Missouri are not fools enough to put their heads in another foray; and, second, nobody but a few satelites in this State will ever believe a word of what it manufactures. It had better turn its attention to saving, if possible, the stock of its friends and followers in the Southern Pacific railroad and giving lectures upon the incorruptable character of the chivalry in the matter of that latest Texas swindle. We believe at the time of the investment, the *Republican* pronounced that "the only best route to the Pacific." We should be glad to know whether its ideas have undergone any change on that point from recent investigations.

A NEW ROUTE TO MILWAUKEE.—We learn from the Detroit papers that—commencing yesterday—the passengers over the Detroit and Milwaukee Railroad, go directly through to Milwaukee—the steamer Forester transporting them from Grand River to Milwaukee. This will be an important route of travel, when all the arrangements are complete; and it will be no insignificant competitor with more southern roads, for northwestern travel.—*Cleveland Review.*

### The Levees of the Lower Mississippi.

Next to the Yellow Fever, the Crevasse is the most dreadful enemy of the inhabitants who dwell on the Lower Mississippi, and the large streams which empty into it. The region around the mouth of the Mississippi, even for several hundred miles above Delta, proper, is a half formed piece of country, discovered and settled by man, before it had been turned out complete from Nature's workshop. It is an alluvial region, degenerating from rich low bottom, in the vicinity of the Red River mouth, in the mass of ooze, half water and half mud, which forms the tongue striking out into the Gulf.

The ground on which the city of New Orleans stands is so thoroughly saturated with water that a hole dug a few feet below the surface, becomes filled by percolation in a few hours. It is impossible to dig graves, and all the cemetries at New Orleans, are above ground; the coffins instead of being deposited in the earth, are simply laid on it, and protected by vaults. Had the discovery of this Continent been delayed a few centuries, the region around and above New Orleans, would by successive annual deposits from the river, have acquired the elevation and consistency of completely formed land.

As it is, the magnificent Sugar and Cotton plantations, which, with a narrow front on the river, extend backwards for miles, are several feet below the level of the river at high water, and require to be protected by artificial levees running along both banks. These levees, or systems of levees, are built by the planters, each of whom constructs and repairs the portion in front of his own estate. Their entire length is about 1,200 miles, and their cost has been about six million dollars. The levee of one planter in Mississippi was built at an expense of $30,000, and other plantations have been protected from the waves at even a greater cost.

It is estimated that in the State of Louisiana alone, there are 15,000 square miles of fertile alluvial soil, which lie below high water mark, and require to be protected by those artificial embankments. The levees are generally made simply of earth, though, in some places, they are strengthened by rocks and piles. Usually they are efficient barriers against the progress of the waves; but during extreme floods they are worn away, in places, by the washing of the water, undermined and broken; and then the circumscribed stream rushes through the gap in an irresistible torrent spreading over the adjacent country, deluging plantations, sweeping away negro cabins, and bearing down everything in its course, until it finally, finds its way through bayous and lagoons to the Gulf.

Five times has the city of New Orleans been partially submerged by the Crevasse—in 1785, 1791, 1799, 1816, and 1849. At the recent flood, the Mississippi attained a higher elevation than it has stood at since 1849, and the consequence is a number of Crevasses in Louisiana and Mississippi, the most formidable of which are the Bell and the Lablanche Crevasses, the first three, and the latter twenty, miles above New Orleans. Damage to the amount of millions of dollars has been caused by these breaks; but the City of New Orleans has not been reached by the waters, on account of the unusual precautions taken, since 1849, to strengthen the embankments which protect it.

We have before us a wood-cut picture of the Bell Crevasse, issued by the New Orleans *Picayune*. The gap is two hundred and fifty feet wide, and twenty-five feet deep. Through it a branch from the "Father of Floods" is rushing with fearful rapidity, covering the adjoining fields, rising around the walls of a sugar-house, and even threatening the plantation mansion.—On the sides are the tongues of the sundered levee, a few inches above the level of the river, and surrounded by a waste of waters. Nevertheless, they are thronged with ladies and gentlemen, who have come from the city to behold the truly grand, though terrible, spectacle.—*St. Louis News.*

☞ Prof. Wood, the renowned discoverer of the invaluable "Hair Restorative," still continues to labor in behalf of the afflicted. His medicines are universally admitted by the American press to be far superior to all others for causing the hair, on the head of the aged, to grow forth with as much vigor, and luxuriance as when blessed with the advantages of youth. There can be no doubt, if we place credit in the innumerable testimonials which the Professor has in his possession, that it is one of the greatest discoveries in the medical world. It restores, permanently, grey hair to its original color and makes it assume a beautiful silky texture, which has been very desirable in all ages of the world. It frequently happens that old men marry beautiful and amiable young ladies, and not unfrequently crusty old maids make victims of handsome, good-natured, young gentlemen, and by what process it has never been determined, until lately, when it was attributed to the use of this invaluable Hair Restorative.—Lasalle Journal. City Auction Rooms.

IT is very important that we should use all economy at this present time, for several reasons. It has been raining for nearly six weeks; and we all feel very poor, and we deprive ourselves of these little comforts which should make us happy, and the children want oranges and candy, and they want to take a ride in the country and see the green trees, and the beautiful wild flowers, but times are so hard that papa cannot afford it. Now this is all folly, and there is no use of making ones family unhappy on account of hard times. The children are not to blame, the wife is not to be found fault with. It is only a hurricane that is passing over us, and in a short time we will see everything looking beautiful, and you can find hundreds of articles at my Auction Room at half-price. Now, I want it distinctly understood; and that with due respect, that I am not a Dry Goods Merchant and would not be one, for something handsome. I always purchase goods when I can get them at half price; and I sell them at a fair profit, not to injure any one, but to help all who are in want, and induce them to use economy in their purchases. I have a great many Summer Goods which can be bought at half-price. Ladies call and see, and judge for yourselves.
my27 CALEB WALL.

City Auction Room.

I WOULD again announce to the citizens of Milwaukee, and the Ladies in particular, that I have some Eight Hundred Dollars worth of Dry Goods on hand, calculated for the spring and summer wear, which I will sell at private sale. It was my intention to have sold the goods all off at auction, and would prefer doing so, but it will prevent the ladies from purchasing many articles, as they do not attend auctions, and in fact they should not, except at private houses, where there may be sales of furniture. I therefore will give to all, for thirty days, an opportunity to come and get any article I may have in Dry Goods, at a discount of thirty per cent, less than any one else will sell. I do not wish to injure trade, nor do I wish to cut the price of goods down, I have too much sympathy for merchants, that I would scorn to do anything that would injure them. I have been a merchant once myself, and all I made while being one you might have put up your eye. I am an auctioneer, my business is to sell all goods that are sent to me, for all I can get for them. I try always to do what is right. I may in some instances err, through the hurry of business, but my intention is to do right. In every instance I am always ready to sell any stock of Dry Goods, Hardware, or any goods of any kind, advance money on it, or I will purchase stocks of goods for cash, or I will exchange property for goods. Any one giving up housekeeping I will sell their furniture for all it will bring. Now I have said all that is necessary. Call at my Auction Room and purchase any goods. I may have that you may want. I have about Five Hundred Bonnets left of the Antique Style, which I will sell at one dime each. Let every lady that has not a Bonnet on her head call and purchase one, and those who are not able to purchase one, I will make them a present of one.

FARM FOR SALE.

SITUATED one half hours ride from town, on a good plank Road. The farm contains eighty acres, sixty-five being improved. Of this, thirty-five acres of which are sowed with grain. The meadow land, and the balance sowed with grain. The whole farm is divided in lots of ten acres each, and well fenced. The farm house is new, having been built by the present owner to occupy himself. The property also contains two new and large barns, with outhouses complete. Also, a large orchard with a great variety of choice fruit. The present owner, having changed business, is desirous to sell, and will offer the property low, and on good terms, or would exchange for city property.

Private and Confidential Medical Advice.

AT THE MILWAUKEE Venerian Hospital; established for the cure of Syphilis, Seminal Weakness, and the infirmities of youth and maturity, by Dr. Barnes.

Dr. BARNES takes pleasure in announcing to the citizens of Milwaukee and other places, that his office is at No. 12 Wisconsin Street.

READ AND REFLECT.—The afflicted would do well to reflect before trusting their health, happiness, and in many cases, their lives, in the hands of physicians ignorant of this class of maladies. It is certainly impossible for one man to understand all the ills the human family are subject to.

YEARS OF PRACTICE, exclusively devoted to the treatment and study of Syphilis, Gonorrhoea, Gleet, Strictures, effect of solitary habits, ulcers upon the body, throat, nose or legs, pain in the head or bones, and all Mercurial Affections, and all impurities of the Blood, whereby the constitution has become enfeebled, enables the Doctor to offer relief to all who may place themselves under his care.

Dr. B. makes no charge for short consultations.—Those requiring much advice should enclose a small fee sufficient to compensate for the time required to write the answer.

**Brick Wanted.**

SEWERAGE COMMISSIONERS' OFFICE,
Chicago, Ill., May 12th 1858.

SEALED Proposals will be received at this office till noon of Monday, the 31st inst. for furnishing eight millions of hard burned SEWER BRICKS, to be 8X4X2½ inches dimensions, made of the best materials, square edged free from lime, pebbles and bats.

Specimens must accompany each proposal.

Of the above quantity, three millions will be required to be wedge shaped, to adapt them to a 2½ foot barrel drain; the cubical contents of these to be the same as the rectangular ones.

No proposals for less than half a million will be received.

The bricks to be delivered in quantities and at times, as follows: one-fourth of the quantity contracted for, on or before the first days of July, August, September and October next, respectively; and to be subject to the inspection and count of an inspector appointed by the Board of Sewerage Commissioners.

Proposals will state the price delivered, piled up on the line of the Sewers on the streets where required for use; and also the price delivered piled up on such dock in the city as the Commissioner may appoint to receive them.

Each proposal to be indorsed "Proposal for Bricks," and addressed to the undersigned.

Satisfactory security for the faithful performance of all contracts will be required.

The Commissioners will reserve the right to reject any proposals, at their discretion.

By order of the Board.

GRAIN CLEANER & SEPARATOR
HORTON'S PATENT
*G. B. BINGHAM & BRO.,*
**Sole Manufacturers in Wisconsin.**

THIS MACHINE is of recent invention, and surpasses all others in use for its perfections as a thorough Separator and Scourer. It has given entire satisfaction in New York, Pennsylvania and other States where it has been introduced, and we are confident it is better adapted to the cleaning of Western grain than any other ever introduced into this State. It is fire proof, not liable to get out of repair, requires but little power to run it, and the scouring cylinder so constructed as to render it unnecessary to be renewed for years. We respectfully invite all Western Millers to give us a call, and examine our machine, at the Bay State Foundry, Florida st., Milwaukee, Wis.

### The Peace Society.

Our old friends the Peace Society, we see, are in annual conclave again at Boston. We have always had the profoundest respect for these gentlemen. The object they have in view is an excellent one—if it could only be accomplished—viz: that all nations should agree to settle their dispute by arbitration instead of the sword. We are hopeful enough to believe, that the blissful day will come—if not in this, then in some far off future generation—when men will stop quarreling and agree to refer their disputes to third parties. Before that happy millenium arrives, however, we cannot help thinking, human nature must be essentially changed. Mankind have been fighting one another these six thousand years past—in fact, ever since Cain killed Abel,—and until the *Cain* is extracted from our nature, we fear we shall keep on murdering Abels just as usual. If this be so, then, seeing that life is so short, the question arises, whether the good-natured, well-meaning philosophers of the Peace Society could not employ their time to better advantage, by devoting what remains of their fleeting existence to enterprizes of a somewhat more practical character. It is quite clear that the world is not ready to be inoculated with their beautiful doctrine; and, until there be signs of some such readiness, is it worth the while,—in other words, will it pay,—to be preaching peace, peace, when there is no peace? There is so much real, downright, earnest work for every man and woman to do in this life, that we cannot help a regret that the practical should be so often set aside for the purely theoretical, abstract and transcendental. It is not wise to peer too far into the future. The Peace Society is composed of men of brains, and intellect and heart. Common sense might teach them that there is "ample room and verge enough" for the profitable exercise of that intellect, those brains, and that heart, in battling with the realities of life, and in doing good while their brief existence lasts,—without wasting them upon abstract philosophies, which are not likely to be in order, as things go, till a thousand years hence. The intentions of the Peace Society are good, doubtless; but then, when we remember that "hell is paved with good intentions," it is a serious question whether such pavements are profitable, in this practical, common sense, matter-of-fact age.

The Peace Society, last year raised $2,855 56 two thousand eight hundred and fifty-five dollars and fifty-six cents. Balance in the Treasury now, $93 18. Without subjecting one's self to the ungracious imputation of throwing cold water upon so praiseworthy an enterprise—in which these gentlemen believe they are embarked—it may be no presumption to suggest that it will take something more than ninety-three dollars and eighteen cents to bring over the rest of the world to a practical recognition of their doctrines. Let us see. As we write, there is war going on in India, war in China, war in Caucasia, war in South Africa, war in Utah, war in most of the States of South America, war in Mexico, and every probability of war, on a grander scale, all through Europe, as soon as some infernal machine blows out the brains of Louis Napoleon. Still the Peace Society is composed of courageous men—and the harder kingdoms, principalities and powers fight each other, the louder we may expect them to cry peace, peace, peace. Oh, when will such men learn that life is a Grave Reality, not a Poetic Abstraction, and that men were born to walk on the earth, not to try to soar up into the clouds, like "airy nothings," without wings.—*New York Express.*

Newburgh, April 19th, 1855.

St. John B. Sanborn, Esq.,

Dear Sir:—In reply to your request, asking my opinion with regard to the Composition Roofing patented by C. R. Milks, I have to state that I have examined the matter carefully, having watched its application in various places and in some very difficult ones, which it has been impossible to stop the leakage of with any other known compound. I have no hesitation in pronouncing, so far as its Water Proof qualities are concerned, essentially the thing, and as to its Fire Proof qualities, having examined the roofs of Homer Ramsdell, Esq., I find the roof boards completely charred through, and at the same time the Composition remains entirely untouched by the fire, although constantly covered with falling brands and cinders. I therefore consider it essentially both a Fire and Water Proof substance, and having had considerable experience with other Compositions for Roofing purposes, (particularly with West's patent,) I have no hesitation in pronouncing it the very best thing extant, both as a Fire and Water Proof Composition for Roofing purposes. H. F. ADAMS.

Having felt an interest in the subject of Mastic Roofing, and knowing that the preparations hitherto used have failed to stand the winters of this climate, we were induced in September last to apply, as an experiment, some of C. R. Milks' Mastic Roofing on a Tin roof adjoining our office, (said roof being much exposed to the action of the weather, and also the rain and snow from another roof,) we find at this date said roofing in the most perfect order, and believe the great question of how does it stand the "winter" is settled, and that C. R. Milks' Roofing must prevail over all other Mastic Roofing in use. SCHUTLER & PARKER,

**Catawba Brandy.**

THIS Brandy has been manufactured for several years from the pure Juice of the Catawba Grape, thus affording additional evidence, of the progress of American enterprise and industry, and of our ability to produce articles at home, equal to those made by any other nation.

The Ohio Catawba Brandy, not only equals but excels the best Imported Brandies, in purity and flavor. It is in fact the best Brandy known. This statement is fully corroborated by the certificates of one most distinguished analytical chemists.

The want of pure brandy has long been felt in this country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded a great public good. The Catawba Brandy posses all the good qualities claimed for the best imported liquors, and is of perfect purity and superior flavor, and a sovereign and sure remedy for

## MEDICAL.

**SANFORD'S LIVER INVIGORATOR!**

**ONE DOLLAR**
WILL BUY
ONE OF THE BEST PURGATIVE and Liver Medicines now before the public, namely DR. SANFORD'S INVIGORATOR, or LIVER REMEDY that acts as a *Cathartic*, easier, milder and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject the morbid matter, then on the stomach and bowels, to carry off the matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it, and when taken in moderate doses will strengthen and build it up with unusual rapidity.

DR. SANFORD'S INVIGORATOR is compounded entirely from new articles of medicine, viz: Gums. Some idea of the strength of these gums may be formed when it is known that one bottle of the Invigorator contains as much strength as one hundred doses of Calomel without any of its deleterious effects.

Though possessing rare medicinal powers, these Gums have been but little known to physicians, and never used in their prescriptions until used in the form of the *Invigorator*, which met with such unprecedented success as to induce the proprietor to offer it as a family medicine tried and known in its effects. It has rarely ever failed to cure Liver Complaints in their worst forms.

INDIGESTION being caused by a deranged Liver is cured when the Liver is excited to action.

JAUNDICE is caused by the improper action of the Liver, and as a proof that the Invigorator relieves this disease, let any one troubled with Jaundice take the Invigorator regularly one week, and their skin will begin to assume its original color.

COSTIVENESS can be permanently cured by the Invigorator. Take it in small doses on retiring, and it assists nature in her operations. By gradually diminishing the dose, the bowels are left in a healthy and active state, and work as regularly as clock work.

SICK HEADACHE is very soon relieved by taking a double dose of the Invigorator, which corrects all acidity and sourness of the stomach.

For an overloaded stomach it has no equal, as it relieves all oppressive or uneasy feeling after eating heartily. For a *family medicine* generally, all who use it speak in the highest terms.

DR. SANFORD'S INVIGORATOR came to us recommended to us a cure for Liver Complaints, and all diseases arising from a diseased Liver. The testimonials of so many of our Physicians in its favor induced us to try it, and now convictions is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything edible without trouble, while before nothing but the lightest food would digest, and often that gave pain. Now what we want to say to all our readers is, if *Liver Complaint* or *Dyspepsia* trouble you, do not fail to try this the greatest remedy in the world.—*State Fact.*

We take infinite pleasure in recommending this medicine as a preventative for FEVER and AGUE, CHILL FEVER, and all FEVERS of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

There has never been tried in our family a remedy which has met with such unbounded success in the cure of diseases incident to children, as DR. SANFORD'S INVIGORATOR; nor is it alone for diseases of children that we use it; for it acts as a Cathartic so mildly and gently, and seems to renovate the system so thoroughly that we think we are doing a service to all in advising them, when they need medicine, to try this remedy. There are cases that have come under our notice where great benefit has been received in diseases of the Liver, Stomach and Bowels, where all other remedies failed to give relief. It has become so useful in our family that we will not be without it.—*Jacksonville, Ala. Republican.*

**AYER'S**
**CHERRY PECTORAL!**
FOR THE RAPID CURE OF
**Coughs, Colds and Hoarseness.**

BRIMFIELD, Mass., Dec. 20th, 1855.
Dr. J. C. AYER—I do not hesitate to say the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your Cherry Pectoral. Its constant use in my practice and my family for the last ten years has shown it to possess superior virtues for the treatment of these complaints. EBEN KNIGHT, M. D.

A. B. MORTLEY, Esq., of Utica, N. Y., writes: "I have used your *Pectoral* myself and in my family ever since you invented it, and believe it the best medicine for its purpose ever put out. With a bad cold I should sooner pay twenty-five dollars for a bottle than do without it, or take any other remedy."

**Croup, Whooping Cough, Influenza.**

SPRINGFIELD, Miss., Feb. 7, 1856.
BROTHER AYER:—I will cheerfully certify your *Pectoral* is the best remedy we possess for the cure of whooping cough, croup, and the chest diseases of children. We of your fraternity in the South appreciate your skill, and commend your medicine to our people. HIRAM CONKLIN, M. D.

AMOS LEE, Esq., Monterey, Ia., writes 3d Jan., 1856: "I had a tedious Influenza, which confined me in doors six weeks; took many medicines without relief; finally tried your *Pectoral* by the advice of our clergyman. The first dose relieved the soreness in my throat and lungs; less than one half the bottle made me completely well. Your medicines are the cheapest as well as the best we can buy, and we esteem you, Doctor, and your remedies, as the poor man's friend."

**Asthma or Phthisic, and Bronchitis.**

WEST MANCHESTER, PA., Feb. 4, 1856.
SIR:—Your *Cherry Pectoral* is performing marvellous cures in this section. It has relieved several from alarming symptoms of consumption, and is now curing a man who has labored under an affection of the lungs for the last forty years.
HENRY L. PARKS, Merchant.

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon trial.

**Consumption.**

Probably no one remedy has ever been known which cured so many and such dangerous cases as this. Some no human aid can reach; but even to these the *Cherry Pectoral* affords relief and comfort.

*Consumptives* do not despair till you have tried AYER'S CHERRY PECTORAL. It is made by one of the best medical chemists in the world, and its cures all around us bespeak the high merits of its virtues.—*Philadelphia Ledger.*

DR. TILTON, having returned from his Southern tour, has taken rooms at the Massasoit House, Chicago, where he will now remain permanently.—Those who suffer from Consumption, Indigestion, Nervous Debility or Weakness, will do well to call on him and have his advice. His

GREAT EAST INDIA REMEDIES,

Which he discovered in Calcutta after many years of research and labor, have become so thoroughly known and appreciated, that an attempt has been made by a few avaricious parties, with the expectations of gain, here and elsewhere, to counterfeit it; therefore, Dr. Tilton cautions the public not to buy this worthless drug as the genuine, no matter how represented, as no one but himself in the United States has possession of the original receipt. Dr. Tilton may be consulted at Room 8, Massasoit House, Chicago, where he last year succeeded in successfully curing hundreds of terrible cases of Consumption. Nervous Debility and Indigestion, Asthmas, Bronchitis, Coughs and Colds. The Cannabis Indica and Lung Balsam, are the greatest blessings of the age. # THE DAILY SENTINEL.

☞ The missionaries in East India have a new lever to aid them in their work of uprooting Hindooism. In their arguments with the Brahmins they have often been met by an unanswerable appeal to the Veda, the ancient scriptures of the Hindoos. The Veda was known to a very few—indeed, there was nowhere a complete collection of the writings—and they were in an obsolete dialect. After long and vexatious labors, finally, under the auspices of the East India Company, and the Asiatic Society, they have been collected and translated in the modern languages of India, and into the English. The leading Brahmins acknowledge the fullness and correctness of the collection. But to the gratification of the Christians and the confounding of their opponents, there is no trace in them of the modern corruptions and licentiousness which have been fostered by a corrupt priesthood.—There is nothing for the marriage of children, the complicated system of castes, the offensive privileges claimed by the Brahmins, the degradation of the lower castes, and widow-burning is against both letter and spirit of the Veda.—There is nothing to forbid the re-marriage of child-widows, or the entire social equality of the people. In short there is an entirely new and improved standard for what is "calculated to receive the approbation of all evangelical" Brahmins.

☞ A letter from Rome mentions a rather curious case of conscience. In 1848, a reliquary, studded with precious stones, and imagined to contain the head of St. Paul, was stolen from the Vatican. Inquiries were subsequently made but did not lead to any result, when a short time since his Holiness received a letter intimating that if a free pardon and absolution were granted to the thief, the precious reliquary and its contents would be restored. The proposal having been accepted, the conscience stricken *latro* intimated that the long lost treasure would be found without the city walls, between the Porta San Pancrazio and the Porta. An imposing procession set out from the Flaminian gate to seek the treasure, and found it exactly on the spot which had been indicated. The jewels, however, had all been removed, but the bones of the apostle were found intact.

SENSIBLE!—Dr. Shannon says: Prof. De Grath, Philadelphia.—I am a regular Physician, graduate of the University of Pennsylvania; have practiced medicine a number of years, and have but little confidence in patent medicines; but from such high recommendations I have determined to try your "Electric Oil" for an old chronic rheumatism, for which all other remedies have failed. Please send me immediately whatever quantity you think necessary, and I will remit the money by return mail. Yours, truly,

D. P. SHANNON, M. D., Mt. Vernon.

*Read This!*—Capt. James M. Turner, being long connected with the Government, and as well known as the President of the United States, says:

New York, Nov. 1st, 1855.

C. De Grath & Co., Phila.—Gents: Actuated by a sense of gratitude, I, for the first time in my life, bear testimony to a patent medicine.

The immediate benefit derived from the use of your wonderful "Electric Oil" has much surprised me, and I feel no delicacy in making my case known for the sake of many more equally sceptical as I have always been regarding medicines.

A few days since, in the act of hanging up a picture in my parlor, I fell backward, landing on top of a chair—so severely spraining my back as not only to cause great pain, but rendering it quite impossible to move about much. A friend advised the use of the "Electric Oil," which I obtained from your agents, and one good application, entirely relieved me in, say, ten minutes. I shall, hereafter, recommend it to all my acquaintances.

I am, sirs, very gratefully yours,
JAMES M. TURNER.

The genuine "Electric Oil" is sold only at 39 South Eighth street, between Chestnut and Walnut, in Philadelphia.

For sale by Houck & Melhorn, in Harrisonburg.

☞ For sale by Bosworth & Sons, and J. H. Tesch Milwaukee; Fahnestock & Davis, and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country. may29d&w

# DISSOLUTION.

## DISSOLUTION NOTICE.

THE CO-PARTNERSHIP heretofore existing between E. Terry and S. Hayt has been this day dissolved by mutual consent, Mr. Hayt having disposed of his interest to E. Terry and Albert B. Cleaver. All demands against and debts due the old concern will be settled by the new firm.

E. TERRY,
S. HAYT.

April 13th, 1858.

## CO-PARTNERSHIP NOTICE.

E. TERRY and ALBERT B. CLEAVER have this day associated themselves together for the purpose of carrying on the Book and Stationery business.—They would solicit a continuance of the patronage so liberally bestowed on the old firm. The business will be conducted under the name and style of E. TERRY & CO.

## IMPORTANT TO GENTLEMEN.

MRS. SHANKS, at 225 East Water Street, Milwaukee, Wis., begs leave to inform the Gentlemen of this city, and particularly those who take pleasure in wearing well got up linen, that, in addition to the manufacture of SHIRT COLLARS, DRAWERS, &c., &c., which she carries on now more satisfactory to her customers than any establishment in the North-West, she is prepared to take in WASHING of every description. Having enlarged her premises, and being in possession of a Patent Glossing Press, for Shirts, Collars, &c.; also, all modern implements and ingredients requisite in her line of business; she feels confident of giving full satisfaction, and promises to do all work cheaper than any establishment this side of New York. Linen got up at the above place will, in appearance, be fully equal to new goods.—Tailors and Clothing merchants will do well to give us a call, as they can recommend our work to their customers at large. Country orders promptly attended to. We sell Shirts from seven shillings to five dollars apiece. Having proved our experience as Proprietress of the New York Shirt Factory, in Baltimore, for the last nine years, we have now come to make a second commencement in the West, and defy the world for better fitting Shirts, Drawers, Dressing Gowns, or anything in our line.

## MILLER & STARR'S

NORTH-WESTERN
Type, Stereotype & Electrotype Foundry,
AND
PRINTERS' WAREHOUSE,
Corner of West Water & Spring Streets,
MILWAUKEE WISCONSIN.

Having completed our arrangements for the above business in this city, we would invite the co-operation of the printers of this and surrounding States in its behalf. Our facilities are equal to any Foundry in the country for manufacturing type and Printer's Material; and for beauty of finish and hardness of metal, cannot be surpassed in this or any other country. The faces of our Type, are all *modern* and most *approved style*, and we shall endeavor to compete with our Eastern brethren in getting up new styles of Type, Borders, Cuts, Ornaments, &c. We are in daily receipt of all new faces as they are made at the East, and in advance of any other Establishment at the West.

Being agents for some of the best Type Foundries and Press and Ink Manufactories at the East, we shall keep constantly on hand a full assortment of every variety of material.

*Presses*, Wood Type, etc., furnished at Manufacturers prices.

Orders for Stereotyping, Engraving, etc. promptly attended to.

We shall issue in the course of the next three months a new Specimen Book which will be furnished on application.

☞ Printers of Newspapers who choose to publish this advertisement including this note, 1 Month, will be allowed their bills at the time of purchasing, three times the amount of our manufacture.

THIS New and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all interior towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between

CHICAGO AND THE EAST.
FARE AS LOW AS ANY OTHER ROUTE.

☞ Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other Routes.

Trains leave Depot on VAN BUREN ST., daily as follows

6:00 A. M. 8.45 P. M.

With but one change of cars to Pittsburgh.

CHECKING BAGGAGE THROUGH

To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains on the great Pennsylvania Central Railroad, to all Eastern cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, via New York Central and New York and Erie Railroads to New York and Boston.

Persons going East will find this route by far the most desirable both from the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.

Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.

# MEDICAL.

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy that cures

EVERY KIND OF HUMOR,
FROM
The worst Scrofula down to a common Pimple.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will clear the system of biles.

Two bottles are warranted to cure the worst canker in the mouth or stomach.

Three to five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three to four bottles are warranted to cure salt-rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle and a perfect cure is warranted when the above quantity taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it; that I need not say anything on the subject, as the most skillful physicians and the most careful Druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother

NURSING SORE MOUTH,

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain of blessings to you husband and household.

In the more advanced stages of

CANKER

extends to the stomach, ensuing

DYSPEPSIA,

which is nothing but canker on the stomach; then to the intestines and

KIDNEYS,

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonous fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to

CURE;

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the

*MEDICAL DISCOVERY*

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,

DONALD KENNEDY.
